RRP: See Webpage or Contact Us for a Quote

To purchase, enquire at info@paulmunnsinstant.com.au, call us on 8298 0555, or visit us at 358 Brighton Rd, Hove.

Toorak is a 40mm tall landscape grass that incorporates multiple layers and colours of yarn to give it a natural and realistic appearance. One of Toorak's standout features is its LOW GLOSS finish which means it's not as "shiny" as other synthetic grasses.

Key Features

Imported Product - Toorak is manufactured overseas and imported into Australia.

10 Year Warranty - Toorak is covered for 10 years against fading.

Low-Gloss Finish - Some synthetic turf can have a shiny appearance, however Toorak has a low gloss appearance.

40mm Pile Height - Toorak has a lush, tall pile height.

Premium Range

Our Premium Range offers a selection of high-quality, dense synthetic turfs chosen for their long warranty duration, solid backing construction and high stitch rates. These features produce a lawn that is durable, soft, and has a natural appearance.

UV Stabilisation

All synthetic turf sold at Paul Munns is UV stabilised, which is a very important feature in synthetic grasses. The pigment in the synthetic grass will not fade over time from the stress of the intense sunlight we receive in South Australia.

Summary

Available in 2m and 4m wide rolls

40mm pile height

Multiple shades of green straight yarn

Beige coloured root-zone thatch under layer

Low Gloss finish

U.V. stabilized

Sand Infill	12-15kg per sq/m
Warranty length	10 years
COOLplus Technology	No
Density	High
Colour Palette	

Determining How Much You'll Need

All our synthetic turf varieties are sold by the lineal metre, but priced by the square metre. This means you will have to buy a certain length of the pre-determined width. For example, if you purchase Toorak in the 4m width, if you were to buy 10m² of it you would receive 2.5 Lm of grass (10sq/m divided by 4). Likewise, if you are after 5 Lm you would order 20m² (5Lm times 4m). We agree that it would make more sense to just price it by the lineal metre, however this is how the rest of the market sells synthetic grass - so to make it easier for you to compare prices we've decided to follow suit.

If you plan your area incorrectly, the joins may be noticeable or you could end up with unnecessary wastage. This could lead to you spending more money than you need to on a finished product that you aren't happy with. If you would like to order synthetic turf, feel free to contact one of our synthetic turf specialists on 8298 0555. They will be happy to help you through the process of choosing the right variety, planning the area perfectly and getting the lowest price for shipping so you end up with the best result for the best price.
